Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: We discussed the buffer layers of Mishima et al., which include In. Applicant proposes that claim 4, which specifies a buffer layer that does not include In, could be combined with the independent claims (1 and 2) to overcome the Mishima reference. Examiner agrees that the buffer layer of claim 4 would not include In, and would overcome the rejection based on the reference teaching of a buffer layer that does include In.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)
